

Built to hire with you.

The operating system for modern hiring. Four connected modules. One brand voice. Zero copy-paste.

One connected system. Four modules. One loop.

Hiring teams stitch together 10+ tools. Talentix replaces the stack with one connected layer, from intake to handover.
Built for recruiters, not around them.

Built on real numbers.

Live signal from 17 paying customers, three sectors, two countries.

100,000+

Built to hire with you, never for you.

The system produces matches. The recruiter produces hires. Human in the loop is not a feature. It is the design.

Let's see if we fit.

20 minutes. One open role.
