

FOUR MODULES. ONE LOOP.

Zero copy-paste between tools.

01 **Blueprint**

Scope the role with the hiring manager. Capture spec, must-haves, deal-breakers and outcomes in a single brief that drives every following step.

02 **Scout**

Find the people. AI matching across 130+ data sources, ranked by fit, surfaced as a shortlist your team can actually act on.

03 **Reach**

Start the conversation. Personal first touches across email and LinkedIn, sequenced by intent, replies routed back to your inbox.

04 **Meet**

Book the call. Calendar handoff, candidate briefing pack, hiring manager prepped, interview confirmed without the back-and-forth.
